

Adjusting the Trust Center Settings

The user can adjust the Trust Center Settings in Excel 2007 to change how they have to interact when opening an Estate Master file. These are suggestions and should only be applied after considering any impacts on security by other Excel files.

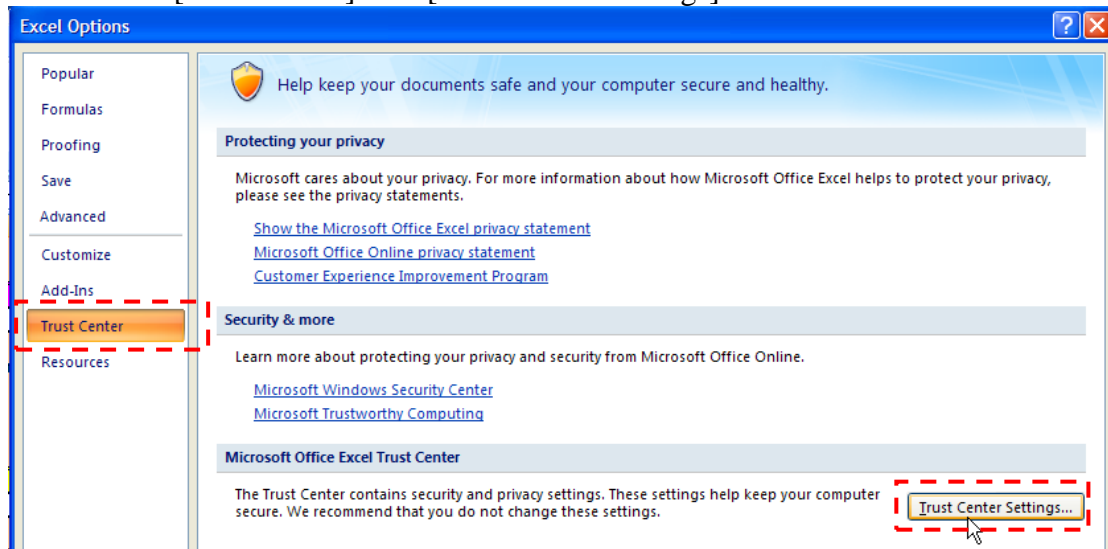

1. Click on Office 2007 Icon

2. Click on [Excel Options]

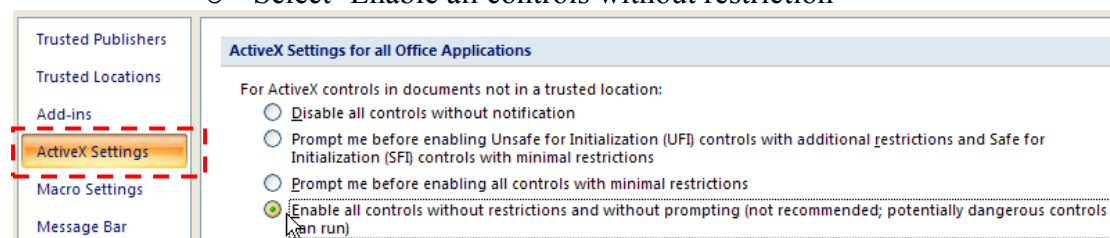

3. Click on [Trust Center] then [Trust Center Settings]

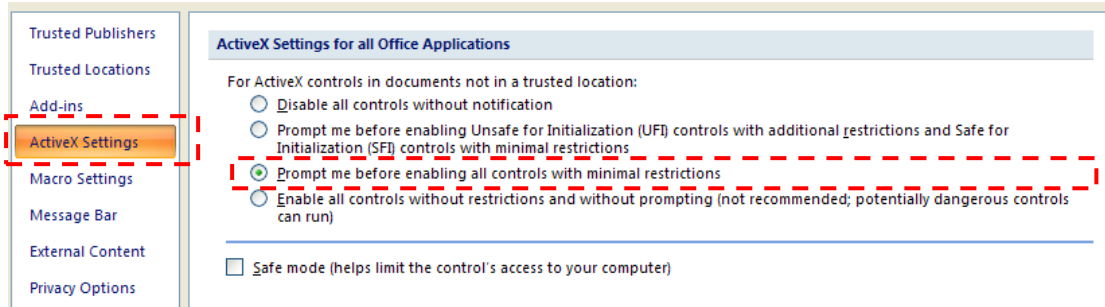

For Active X Controls

- Select 'Active X Settings' in the left-hand pane
- To avoid having to enable Active-X each time a user opens a file:
 - Select 'Enable all controls without restriction'

- To force the user to enable Active-X each time a user opens a file:
 - Select 'Prompt me before enabling all controls with minimal restrictions'

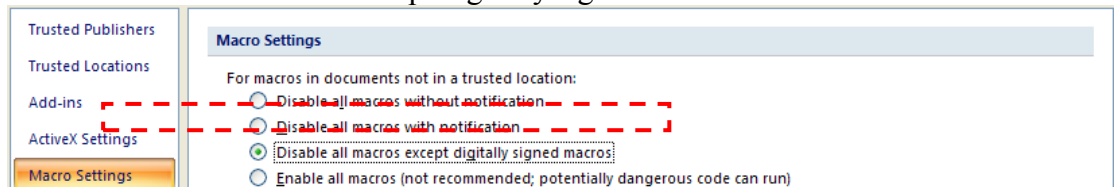

For Macros

- Select 'Macro Settings' in the left-hand pane
- Select 'Trust access to the VBA project object model'

Developer Macro Settings

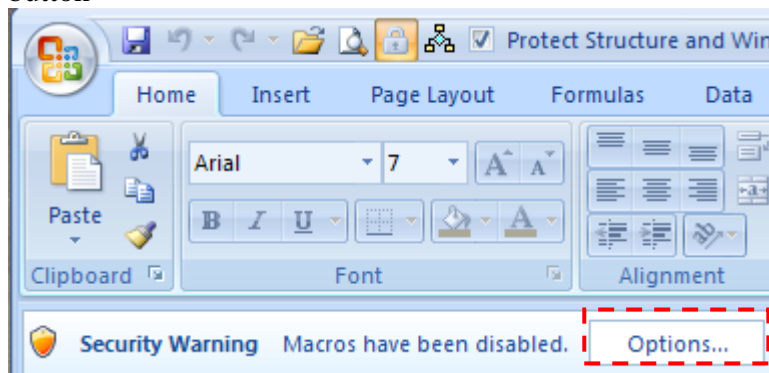

☒ Trust access to the VBA project object model

- Select 'Disable all macros except digitally signed macros'

When Opening a File

- When opening an Estate Master file for the first time after making the above adjustments, if a 'Security Warning' appears, click on the 'Options' button

- For the Macros signed by Estate Master Pty Ltd, select 'Trust all documents from this publisher' and click OK

**Security Alert - Macros & ActiveX****Macro**

Macros have been disabled. Macros might contain viruses or other security hazards. Do not enable this content unless you trust the source of this file.

Note: The digital signature is valid, but the signature is from a publisher whom you have not yet chosen to trust.
